MADRIGAL

Built for comfort 40 years ago, Geary-designed "Madrigal" is 45' in length, with a 12'6" beam. The now classic

Lake Union built boats were considered the seagoing "Cadillacs" of their time.

Large salon and wheelhouse is lined with old teak, and fittings that were (and are probably still) the best available. Decor here and throughout features green indoor/outdoor carpet, black vinyl cushions, with yellow and gold appointments.

Built in 1929 at Seattle's Lake Union Yard from a design by Geary, the Marina del Rey berthed "Madrigal" continues to be what she was always meant to be — a comfortable and quietly elegant family boat.

Now owned by Stuart Cramer and Albert Handschumacher and their families — the third owners in her 40-year life — she has for the past six months been undergoing much restoration and some modernization. In the latter category are a Crusader Diesel with an 800 mile range, a new stove and range in the galley, electronics, and general redecorating throughout.

Living quarters aboard include a main salon, two staterooms (one with

four bunks, one with two), two heads (one with shower), and galley.

Planned for this summer by her present two owners and their families, all members of California YC, are a cruise to Santa Barbara, another to Baja California, and several to Catalina.

Telephone Lineman

Telephone lineman shown is one of a crew now at work installing underwater cables at Marina del Rey in a project which, according to division manager Earl E. Carter of General Telephone Company, will soon provide telephone facilities for every boat slip at this Marina.

More than 750 of the boats berthed here already have telephones aboard. Monthly rates are said to be the same as for residential service, and installation is now often possible within two days.

Boatowners Warned

Boatowners were recently warned by Ed Nichols, executive director of the Southern California Marine Association, that Assembly Bill 2221 introduced into the State Legislature last April 2 by Assemblyman Pete Schabarum of Glendora will, among other things, double the cost of boat registration in California.

"The boatowner will not only have to pay twice the amount paid in the past, but instead of renewing every

three years he will have to do so every year," according to Nichols. "Speaking as a private boatowner and not an official of SCMA," said Nichols, "this appears to me to be just another government tax on the boating citizenry of this state, even though it is labeled as a registration fee. We are already paying every kind of tax there is on our boats, and now the state wants more. Where does it end?"

Ship's Mast

Flagstaff at Santa Monica YC's new clubhouse was originally the mast of a yacht — the H-28 "Nefertiti". Discovered "in retirement" at a San Pedro boatyard, it was donated to the YC for its present use.
